PROFILE

As a passionate web developer with a talent for building dynamic, user-friendly websites, I provide new perspectives and a solid understanding of the newest online technologies. I'm passionate about writing clean, efficient code and have practical expertise developing responsive websites. Throughout my training, I've already produced significant projects. My will to innovate, my ability to solve problems, and my attention to detail make me a strong candidate prepared to contribute and develop in a hectic work environment.

PROJECTS

RESTAURANT WEBSITE

Jan 2024-Mar 2024

In order to create a visually appealing and extremely functional platform, I used HTML, CSS, JavaScript, and Bootstrap to develop a comprehensive restaurant website as a project. The website uses Bootstrap for a clean, contemporary look and feel and has a responsive design for the best possible user experience on a range of devices. I created a user-friendly layout and captivating graphics using HTML and CSS, and I incorporated interactive features like a dynamic menu and reservation system using JavaScript. My ability to combine front-end technology to create a polished, user-friendly website that meets the needs of the restaurant business was demonstrated on this project.

PERSONAL PORTFOLIO

June-2024-Aug 2024

Using HTML, CSS, JavaScript, I created a personal portfolio website to highlight my abilities, accomplishments, and projects. The portfolio has an adaptable layout with a simple, contemporary design that make it appear fantastic on any screen. I presented my work in an orderly and eye-catching manner using HTML and CSS, while JavaScript added interactive features like dynamic content displays and smooth scrolling. Using Bootstrap made it possible for a unified and polished appearance that successfully showcased my skills in web design and development.

FITNESS WEB APP

March-2024-May 2024

Using React.js, I developed a fitness online application with the goal of providing a fluid and engaging user experience. With its simple, user-friendly interface, the app lets users track their workouts, keep tabs on their progress, and access fitness resources. I created reusable, dynamic components and effectively managed state using React's component-based design to guarantee seamless functionality and performance. This project showed off my expertise with React as well as my capacity to create dynamic, user-friendly websites that cater to fitness fanatics.

INTERNSHIPS

Intern, Solitaire Infosys Pvt.Ltd

Jan 2024-July 2024

I worked mostly on frontend programming inside the MERN stack during my internship at Solitaire Infosys, where I made a significant contribution to the creation of dynamic and responsive online apps. I used my expertise in Express.js, Node.js, MongoDB, and React.js to build dynamic user interfaces and to smoothly connect frontend elements with backend services. In order to design and implement user-centric features, maximise performance, and guarantee a consistent and interesting user experience, this role required cooperating with cross-functional teams. During my tenure at Solitaire Infosys, I developed my technical proficiency and gained invaluable experience in creating full-stack solutions in a formal environment.

SKILLS

- | | |
|----------------------------------|-------------|
| • Ability To Work In A team | Skillful |
| • Fast Learner | Skillful |
| • Ability To Multitask | Skillful |
| • Customer Service | Expert |
| • Ability To Work Under Pressure | Skillful |
| • Communication Skill | Beginner |
| • Microsoft Office | Expert |
| • HTML5 | Expert |
| • CSS3 | Expert |
| • Javascript | Skillful |
| • Bootstrap | Experienced |
| • C/C++ | Experienced |

HOBBIES

- Playing Cricket
- Listening Music
- Travelling

LANGUAGES

- English
- Urdu
- Kashmiri

COURSES

Aug 2022 - Sep 2022 **Web Development, Rooman Technologies. Srinagar J&K**

July 2023 - Aug 2023 **Al furqan Computers. Srinagar J&K**
